9

WHAT IS CLAIMED IS:

1. A method for locating cellular phone numbers comprising, in combination, the steps of:

compiling a list of cellular phone users from at least one
5 cellular phone provider;

compiling a list of corresponding cellular phone numbers of said cellular phone users;

creating a database of said list of said cellular phone users and said list of corresponding cellular phone numbers of
10 said cellular phone users; and

a user searching said database.

2. The method of Claim 1 wherein said database is an alphabetical directory of said cellular phone users and said corresponding cellular phone numbers.

15 3. The method of Claim 2 wherein said alphabetical directory is published in an electronic network.

4. The method of Claim 2 wherein said alphabetical directory is published in a phone book.

5. The method of Claim 2 wherein said alphabetical
20 directory is published in a CD-ROM.

6. The method of Claim 2 further comprising the step of generating revenue by soliciting advertising in said alphabetical directory.

10

7.   The method of Claim 2 further comprising the step of publishing a separate alphabetical directory for separate cellular phone providers.

8.   The method of Claim 2 further comprising the steps of:

5   compiling a list of cellular phone users of a first cellular phone provider;

compiling a list of cellular phone users of at least a second cellular phone provider;

compiling a list of cellular phone numbers of said cellular

10   phone users of said first cellular phone provider;

compiling a list of cellular phone numbers of said cellular phone users of said at least a second cellular phone provider;

merging said list of cellular phone users and corresponding cellular phone numbers of said first cellular phone provider

15   with said list of cellular phone users and corresponding cellular phone numbers of said at least a second cellular phone provider; and

creating an alphabetical directory of all cellular phone users and corresponding cellular phone from said first cellular

20   phone provider and said at least a second cellular phone provider.

11

9.   The method of Claim 1 further comprising the steps of:

tagging cellular phone numbers as unpublished at the

request of corresponding cellular phone users; and

removing unpublished cellular phone numbers from said list

5   of corresponding cellular phone numbers of said cellular phone

users.

10.   The method of Claim 1 wherein said database is

available to be searched through a dial-in cellular phone

directory capable of allowing said user to call a designated

10   directory number and request a cellular phone number

corresponding to a name of a cellular phone user.

11.   The method of Claim 10 wherein said dial-in cellular

phone directory is operated by a voice-recognition computer.

12.   The method of Claim 10 wherein said dial-in cellular

15   phone directory is operated by a person.

13.   The method of Claim 2 wherein said alphabetical

directory is capable of being downloaded to a cellular phone.

14.   The method of Claim 2 wherein said alphabetical

directory is capable of being downloaded to a computer.

20   15.   The method of Claim 2 wherein said alphabetical

directory is capable of being downloaded to a personal digital

assistant.

12

16. A system for locating cellular phone numbers,

comprising, in combination:

a memory for storing program instructions and data;

a processor coupled to said memory for executing said

5   program instructions; and

a user input device coupled to said processor for receiving

user input, wherein said program instructions include

instructions for

compiling a list of cellular phone users from at least

10 one cellular phone provider;

compiling a list of corresponding cellular phone

numbers of said cellular phone users;

creating a database of said list of said cellular

phone users and said list of corresponding cellular phone

15 numbers of said cellular phone users;

receiving a user input requesting a cellular phone

number of a specific cellular phone user;

searching said database for a name of said specific

cellular phone user;

20 locating said name of said specific cellular phone

user from said list of cellular phone users from at least one

cellular phone provider;

matching said name of said specific cellular phone

user from said list of cellular phone users from at least one

13

cellular phone provider with said corresponding cellular phone

number of said cellular phone user; and

     generating a response to communicate to a user a

corresponding cellular phone number of said name of said

5   specific cellular phone user from said database of said list of

cellular phone users and said list of corresponding cellular

phone numbers of said cellular phone users.

14

17.   The system of Claim 16 wherein said response is communicated to a user audibly.

18.   The system of Claim 16 wherein said response is communicated to a user textually.

5   19.   The system of Claim 16 wherein said response to communicate to a user comprises a message that no corresponding phone number exists for said specific cellular phone user.

20.   The system of Claim 16 wherein said response to communicate to a user comprises a message that said 10   corresponding phone number for said specific cellular phone user is unpublished.
